And What Have You

By BOB CRAIG

I am finding it very difficult to get very enthused about the constitution convention now underway in Austin. Just don't believe that the taxpayers are going to get much for their money during this session.

Estimates indicate that it is costing us taxpayers about \$50,000 per day to keep these folks down there.

Because I am not an authority on constitutions I could be wrong but it seems to me that the best thing they could do is to pass the constitution as drawn up by the special committee and go home.

While I am sure that there are many things wrong with the one that the committee came up with, I just don't have much faith in 101 representatives and 31 senators coming up with anything better.

While they might come up with some changes that would help the proposed constitution I am afraid that for every good change they might make they will likely make several bad ones.

The whole basic idea of one branch of our government drawing up a constitution seems at fault. It seems logical to assume that the other two branches, executive and judicial, will come out on the short end. I doubt if the common citizen will fare any better.

Most of these representatives will probably be more concerned about getting re-elected during this election year than they will be about writing a new constitution.

But I have very little faith in this group accepting the committee's report or writing a better constitution for that matter. One consolation is the fact that the voters will have a voice this fall on the matter and can reject it if the legislators botch the job.

George Dolan, veteran columnist for the Fort Worth Star-Telegram, says a Cowtown engineer has worked up an eight-point automotive gasoline conservation program thusly:

1. Remove anti-pollution devices (20 percent saving).
2. Tune engine for optimum performance (15 percent saving).
3. Over-inflate tires by three pounds (10 percent saving).
4. Drive at a steady 50-mile per hour maximum (15 percent saving).
5. Avoid jackrabbit starts and stops (10 percent saving).
6. Do not use air conditioner (15 percent saving).
7. Do not use vehicle for short trips (15 percent saving).
8. Install a C.I.C. ignition system (5 percent saving).

Total savings add up to 105 percent. "Therefore," Dolan's friend explains, "if you observe all these methods and have a 21-gallon tank, drain approximately one gallon from said tank each week in order to avoid excessive gasoline in vehicle."

Speed Limit Drops to 55 Sunday

AUSTIN—The Texas Highway Commission today set a statewide maximum speed limit of 55 miles per hour, effective at 12:01 a.m., Sunday, January 20.

The action was taken in keeping with the law passed by the recent special session of the Texas Legislature, empowering the Commission to set lower speed limits to comply with federal energy saving actions.

Under the terms of the Emergency Highway Energy Conservation Act signed by the President January 2, a state not establishing a 55 m.p.h. maximum speed limit would not receive its share of federal highway construction funds.

Federal taxes on items related to the operation of motor vehicles—notably a four-cents-per-gallon levy on gasoline—go into the Federal Highway Trust Fund. These funds are apportioned back to the state for the federal government's share of highway construction.

Texas' share amounts to some \$240 million annually which would be withheld if the

lower speed limit were not set by early March.

Today's action is subject to review within eight days by

Governor Dolph Briscoe. The lower speed limits will apply to all highways in the state, including highways under the

County Commissioners Set New Voting Precincts

Jones County will have 14 voting precincts under a plan approved by the commissioners court, and many boxes will take on new numbers.

Numbering of boxes was started here in Hamlin and continued clockwise around the county back to Hamlin. The box here which is in Precinct 1 will be No. 1 while the box which is in Precinct 4 will be No. 14.

Stamford's two boxes will be 2 and 3 with the old Box 10 or West Box becoming Box 2, and Box 25 or East Box, becoming No. 3. The dividing line between the two boxes will be changed.

These changes were made necessary when the county was

redistricted and some of Hamlin was placed in Precinct 4 and some of Stamford was placed in Precinct 1.

All of the area north of Lueders which remains in Precinct 2, will now vote at Avoca because Lueders has been placed in Commissioners Precinct 3.

Anson, which formerly had four boxes, one each for each of the four precincts, will now have just two boxes, 11 and 12, with 11 in Precinct 3 and 12 in Precinct 4.

Box 13 will be located just north of Anson with voting possibly taking place in the gin office. This will be Box 13 and will be in Precinct 1.

New speed limit signs replacing the old 70-m.p.h. maximum speed limit on the State's major highways, will be in place by the effective date. The Highway Department will begin immediately the task of making and posting the new signs.

The Commission also directed the Highway Department to monitor and document circumstances "which might relate to the establishment of speed limits and to report to the Commission on a monthly basis." This is in order that the Commission may make findings as to whether the 55 m.p.h. limit should continue in effect.

Many motorists in Texas already have voluntarily reduced their driving speeds to below 55, Highway Department spokesmen said.

CALLS ELECTION—

School Board Keeps Old School Time Here

The Trustees of the Hamlin Independent School District voted here Monday evening not to change school hours and called the election of two trustees for Saturday, April 6.

The board discussed delaying the starting time of school until 9 a.m. because of Daylight Saving Time but voted against

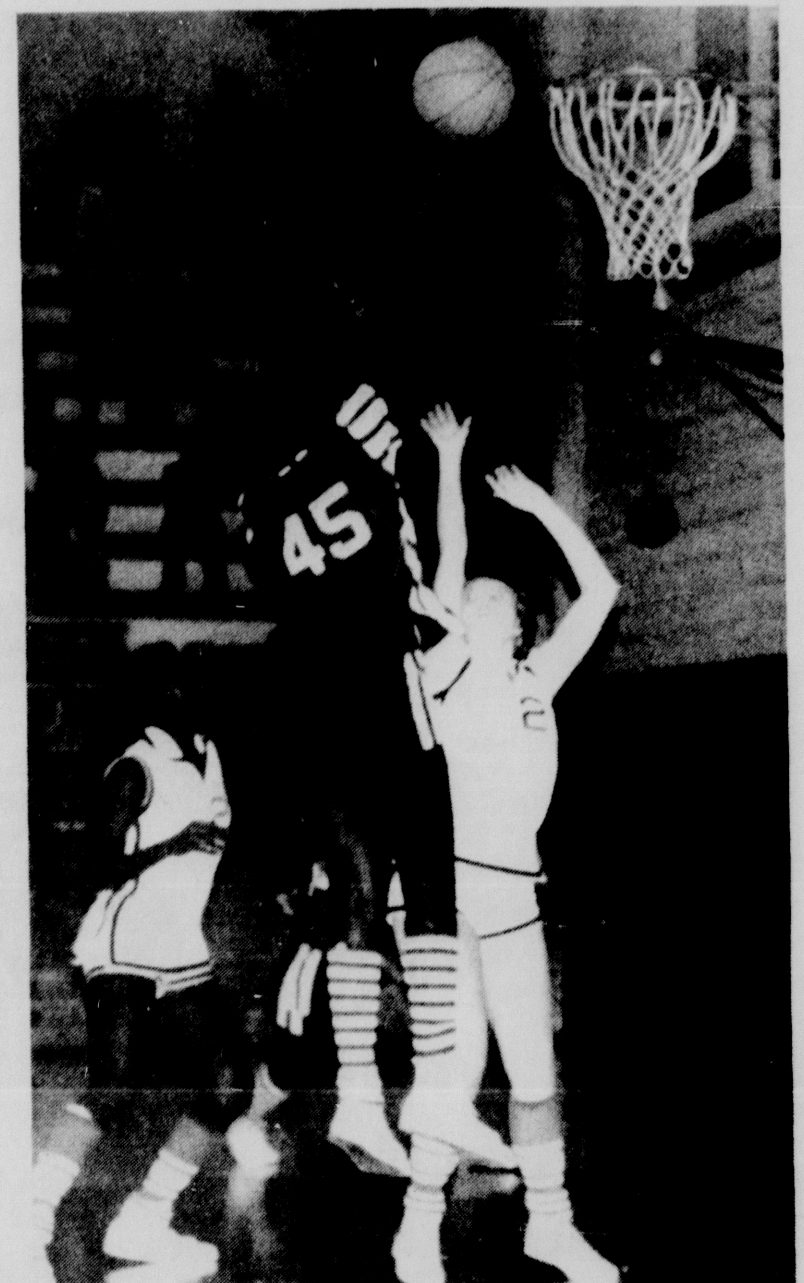

it because the Trustees had heard very few complaints about the present schedule.

The terms of two trustees expire this year and will come up for election in April. Both men, Raymond Scifres and Jackie Williams, filed for re-election Monday evening. Filing deadline for the election is March 7.

Mr. and Mrs. A. B. Carlton and Mrs. Arlie Casale were named election officials and Mrs. J. O. Murphree was named absentee clerk. Anyone desiring to file for election may fill out an application in the superintendent's office at the high school.

The board, acting in executive session, renewed Superintendent Bob Hawes' contract and extended it one year. The extension gives the superintendent a three-year contract. He previously has had a two-year contract.

The board also heard an attendance report from the superintendent that showed a slight increase in attendance for the fall term of 1973 over the fall term of 1972. The percent of attendance for 1972 was 95.6 as compared to 1973 which was 95.83. Total enrollment for 1973 was up from 825 in 1972 to 840 in 1973. The bulk of the increase is in kindergarten, it was pointed out. The average daily attendance was up from 781.9 in 1972 to 801.8 in 1973.

CORK PUTS UP TWO POINTS—Alberta Cork shoots a two pointer for the Piperettes in their 71-46 victory over Anson. Cork hit 13 points for the night. Leigh Anne Vaughan was high for the Piperettes with 36 points and Kathy Hooper put in 22 points.

Question:
Will you have enough natural gas for your home this winter?

Answer:
Yes!

Let's lay this question to rest once and for all. Lone Star Gas Company has enough natural gas reserves under contract to adequately supply our residential, commercial and other higher priority customers for many winters.

To be sure we have enough for these consumers, we will make some extensive curtailments of service to our large volume customers during extreme cold weather this winter. In fact, our contracts with large volume customers anticipate the need to curtail up to 100% of their needs during these cold periods. This allows us to assure service to residential, commercial and other higher priority customers.

We're taking major steps to make sure you have gas for the future. New gas we're buying costs more than *four times the price* we paid just a few years ago. This is an astonishing amount of money! But it's the price all of us must pay for a continuing supply of natural gas energy.

This winter, and in the future, natural gas from Lone Star will continue to be your best method of home heating, water heating and cooking...just as it has been for more than 40 years. But we all must remember to help conserve this precious energy fuel.

FROM THE FILES . . .

FIFTY YEARS AGO

(January 11, 1924)
The regular meeting of the Jones County Medical Association met here Tuesday afternoon. The Legion Hall was used and a very interesting session was reported. Dr. Jones of Anson brought forth a paper that was given considerable discussion. After several interesting reports the election of officers took place and the following officers were elected: Dr. Taylor, president; Dr. Hudson, vice president; Dr. Jones, secretary and treasurer; Drs. White, Jones and Hudson, Delegates to the State Association.

Since Tuesday night Hamlin people have unanimously agreed to attack burglars alarms on their garage doors and walls, for on Tuesday night, it was fully proven that locks are no good. Somewhere there is a pile of auto articles, sufficient to fill an ordinary auto supply house with anything needed from a pump to a shot gun. Why the rascals even took hypodermic needles, overcoats and tires, tubes and rims.

The January term of the District Court of Jones County convened at Anson on Monday, Jan. 7, and the Grand Jury was impeached for the term. Indications are that the present term of District Court will be a busy one. There are about 50 felony cases, a large number of complaints, about 70 new civil cases have been filed and 29 divorce cases are awaiting action of the Court.

TWENTY YEARS AGO

(January 15, 1954)
Outlook for cotton for 1954 is one of large supplies and moderate or less demand, declares Bill Lehmberg, county agent, who says a situation of this kind is not too favorable to prices. This situation will cause Texas Cotton producers to make sharp adjustment in their plans for the 1954 crop year. Several members of the Hamlin Lions Club are scheduled to attend two area meetings within the next few days. A zone meeting will be held at Sweetwater Monday evening, at which Zone Chairman, B. V. Newberry of Hamlin will preside. Early response to the annual March

of Dimes campaign in the Hamlin community has been good. A check of the test tube receptacles during the first part of the week revealed that considerable change is coming in at the counters of many Hamlin business houses. Plans for other more concerted programs for the drive were made by the chairman and his staff of advisors this week.

About 500 feet of two-inch gas line is being laid on South Central Avenue by Lone Star Gas Company. The mains are replacing old pipe laid several years ago.

Two completions, one deepening project, a new location and two major tests of deep wells in the Hamlin area highlight the oil development picture for the week.

TEN YEARS AGO

(January 16, 1964)
The Hamlin Lions Club's fund raising drive for a Boy Scout Hut got underway here this week and the response has been very good. By Tuesday the drive had raised around \$800 of the \$2,000 to \$2,500 expected to be needed with only a few of the Lions Club members having reported. The club is making a canvass of all of the business men of the city as the first part of their drive.

Last Saturday more than 500 musicians gathered on the McMurry College campus in Abilene for All-Region Band elections. Freddie Shave, senior band student, was one of the 106 musicians selected.

The sale of poll tax receipts at the office of the Hamlin Board of Community Development is lagging as only 50 have been sold the first half of the month. Last year 300 receipts were obtained through the local substation. Residents are urged to buy their poll taxes early so as to prevent a last minute rush.

Tickets for the annual Board of Community Development banquet have been distributed to the board and to business firms in Hamlin and are now on sale for \$2.00. The banquet will be held Friday night, Feb. 7, in the High School Gymnasium.

At least four grass fires have required the services of the Hamlin Volunteer Fire Department during the past week.

Neinda Philosopher Goes Through His Annual Chore of Cleaning Off Desk

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One sifts through a few scattered thoughts this week, getting rid of the old year.

Dear editor:

I was going through the annual chore of cleaning off my desk preparing for a new year and ran across a few paragraphs I might as well get rid of on the grounds of the old saying, "Waste not, Want not," which was true up till about six months ago when nearly everything, whether we'd wasted it or not, ran short, including even balling wire and I have yet to hear of any farmer

ever wasting balling wire.

Anyway, here are a few scraps I saved from my wastebasket:

Now that daylight saving time is in effect some people are worried about kids going to school in the dark, whereas maybe they ought to be worried about kids coming out of school in the dark.

Speaking of egg sayings, I have often wondered, you reckon the one about "not putting all your eggs in one basket" was thought up by a basket maker?

Language has to be handled carefully not only to get your point over but to keep from setting it over. For example,

how far would that famous hamburger chain get if instead of advertising its famous "Quarter pounder" it said the same thing by calling it a "Four ounce"?

By the way, in case you have any reader who is slow on the up-take and probably borrows a copy of The Herald, there are 16 ounces in a pound, even of hamburger meat.

And then there was the Scrooge-type man who, on getting a picture of his out-of-state grandchildren for Christmas, said "Hmnm... how's that saying go... One picture is worth a thousand kids."

You can't always believe what you read. On the other hand, if you read just what you believe, you won't use much electricity.

Yours faithfully,
J. A.

Attitude... OF PRAYER

"Give ear to my words, O Lord, consider my meditation. Harken unto the voice of my cry, my King, and my God: for unto thee will I pray."

Psalms 5:1-2

God hears and answers prayers, but not everyone knows how to pray. Even the Lord's disciples asked that he teach them how to pray.

Attitude of the individual is important in prayer. Prayer is the opportunity that we have to tell God of our blessings and give thanks. It is an opportunity to petition for help, but above all, our hearts should be willing that God's will be done.

Prayer should be offered individually and in groups.

ATTEND CHURCH
AND
PRAY WITH OTHERS

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Joe Fudge Released From Hospital

Joe Alan Fudge was released from Hendrick Memorial Hospital last Tuesday after being treated for serious injuries in a one-vehicle turnover Christmas Eve. The accident occurred about 10:20 p.m.

Fudge was taken to Abilene by ambulance and treated for eye injuries, broken right leg, and surgery later to remove the right knee cap that was mangled. The family said he would be in a cast for about four to six weeks and then will undergo therapy.

Fudge was a passenger in a pickup driven by Aubrey Fry, 25, of Rotan. The truck was traveling south on State Highway 70 when the driver apparently lost control and the vehicle crossed the center stripe and went off the road on the left side, said Highway Patrolman Albert Hataway of Roby who worked the accident along with Allan Arnwine of Roby.

Fry was treated for minor injuries and released at Callan Hospital in Rotan. Fudge is employed by Oliver Oil Co. service station.

Leon Thurman Seeks Fourth Term As Judge

Leon Thurman has authorized the Hamlin Herald to announce that he is running for re-election to the office of County Judge of Jones County. He is presently serving his third term in this capacity.

Judge Thurman served as State Representative before being elected County Judge.

He is 58-years-old and is a licensed practicing attorney.

He stated he would see as many voters as possible; however, the energy shortage may hinder him from seeing everyone.

He stated that his detailed announcement would follow at a later date.

COURTS SPEAK — The State Supreme Court found a Jefferson County welder was due the maximum 200 weeks of workmen's compensation benefits for an injured knee, although he refused corrective surgery.

In other cases the High Court held:

• Lower courts were wrong in directing a Nacogdoches highway contractor to pay school taxes on construction machinery located outside the school district.

• Claims by 14 ex-employees of a pipeline construction company that the company owed them \$71,728 in bonuses on promise of the president are not valid.

• A divided (3-2) Court of Criminal Appeals once more ruled against the appeal of former State Representative Walter Knapp.

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

I am finding it very difficult to get very enthused about the constitution convention now underway in Austin. Just don't believe that the taxpayers are going to get much for their money during this session.

Estimates indicate that it is costing us taxpayers about \$50,000 per day to keep these folks down there.

Because I am not an authority on constitutions I could be wrong but it seems to me that the best thing they could do is to pass the constitution as drawn up by the special committee and go home.

While I am sure that there are many things wrong with the one that the committee came up with, I just don't have much faith in 101 representatives and 31 senators coming up with anything better.

While they might come up with some changes that would help the proposed constitution I am afraid that for every good change they might make they will likely make several bad ones.

The whole basic idea of one branch of our government drawing up a constitution seems at fault. It seems logical to assume that the other two branches, executive and judicial, will come out on the short end. I doubt if the common citizen will fare any better.

Most of these representatives will probably be more concerned about getting re-elected during this election year than they will be about writing a new constitution.

But I have very little faith in this group accepting the committee's report or writing a better constitution for that matter. One consolation is the fact that the voters will have a voice this fall on the matter and can reject it if the legislators botch the job.

MAR. 7—Last day for candidates to file for Hamlin City Commission and Hamlin Independent School District elections.

APR. 6—Hamlin City Commission and Hamlin Independent School District elections.

MAY 4—State-wide party primaries (both Republican and Democratic) for county, district and state elections.

JUNE 1—Party Primary runoff (if necessary).

NOV. 5—General election for county, district and state offices. It will also include a vote on the new revised Texas Constitution.

George Dolan, veteran columnist for the Fort Worth Star-Telegram, says a Cowtown engineer has worked up an eight-point automotive gasoline conservation program thusly:

1. Remove anti-pollution devices (20 percent saving).
2. Tune engine for optimum performance (15 percent saving).
3. Over-inflate tires by three pounds (10 percent saving).
4. Drive at a steady 50-mile per hour maximum (15 percent saving).
5. Avoid jackrabbit starts and stops (10 percent saving).
6. Do not use air conditioner (15 percent saving).
7. Do not use vehicle for short trips (15 percent saving).
8. Install a C.I.C. ignition system (5 percent saving).

Total savings add up to 105 percent. "Therefore," Dolan's friend explains, "if you observe all these methods and have a 21-gallon tank, drain approximately one gallon from said tank each week in order to avoid excessive gasoline in vehicle."

JONES SHOTS TWO—Johnny Jones goes up in the air to make two points against the Anson Tigers Tuesday evening as the Pipers took their fourth district win, 64-63. Jones was high for the Pipers with 26 points. Hamlin will host Haskell here Friday to close out the first round of action in district play.

County Livestock Show Set In Anson Saturday

Jones County Livestock Show will be held in Anson Saturday with Stamford serving as the host town.

Judging will begin at 10 a.m. Swine will have to be in the show barns by 5 p.m. Friday. Other stock is to be in by 8:30 a.m. Saturday.

Judges for swine, lambs, beef and dairy will be L. R. McDaniel, vocational agriculture teacher and Sterling Lindsey, Coke County Agriculture Agent, both of Robert Lee.

Rabbit, poultry, dairy,

breeding sheep and market sheep, breeding beef and market beef, breeding swine and market swine will be judged.

Don Welch, agriculture teacher at Lueders-Avoca, will be the general superintendent for the show. Milburn Wink, Hamlin agriculture teacher, is show secretary.

The prize money is derived from the entry fees on the animals and donations of \$375 each from the Stamford Chamber of Commerce, the

Anson Chamber of Commerce and Hamlin Board of Community Development, and \$25 each from Lueders-Avoca and Hawley.

The 10 trophies are given by Anson Lion Club, Jones County Farm Bureau, Hawley Lions Club, Lueders Lions Club, R. B. Rowland and Roy Moritz, of Stamford, Sam Baize, of Stamford, Hamlin Lions Club, Hamlin Rotary Club, F & M National Bank of Hamlin and Sellers Cattle Company.

Speed Limit Drops to 55 Sunday

AUSTIN—The Texas Highway Commission today set a statewide maximum speed limit of 55 miles per hour, effective at 12:01 a.m., Sunday, January 20.

The action was taken in keeping with the law passed by the recent special session of the Texas Legislature, empowering the Commission to set lower speed limits to comply with federal energy saving actions.

Under the terms of the Emergency Highway Energy Conservation Act signed by the President January 2, a state not establishing a 55 m.p.h. maximum speed limit would not receive its share of federal highway construction funds.

Federal taxes on items related to the operation of motor vehicles—notably a four-cents-per-gallon levy on gasoline—go into the Federal Highway Trust Fund. These funds are apportioned back to the state for the federal government's share of highway construction.

Texas' share amounts to some \$240 million annually which would be withheld if the

lower speed limit were not set by early March.

Today's action is subject to review within eight days by

Governor Dolph Briscoe. The lower speed limits will apply to all highways in the state, including highways under the

County Commissioners Set New Voting Precincts

Jones County will have 14 voting precincts under a plan approved by the commissioners court, and many boxes will take on new numbers.

Numbering of boxes was started here in Hamlin and continued clockwise around the county back to Hamlin. The box here which is in Precinct 1 will be No. 1 while the box which is in Precinct 4 will be No. 14.

Stamford's two boxes will be 2 and 3 with the old Box 10 or West Box becoming Box 2, and Box 25 or East Box, becoming No. 3. The dividing line between the two boxes will be changed.

These changes were made necessary when the county was

redistricted and some of Hamlin was placed in Precinct 4 and some of Stamford was placed in Precinct 1.

All of the area north of Lueders which remains in Precinct 2, will now vote at Avoca because Lueders has been placed in Commissioners Precinct 3.

Anson, which formerly had four boxes, one each for each of the four precincts, will now have just two boxes, 11 and 12, with 11 in Precinct 3 and 12 in Precinct 4.

Box 13 will be located just north of Anson with voting possibly taking place in the gin office. This will be Box 13 and will be in Precinct 1.

BOYS, GIRLS UNDEFEATED—

Hamlin to Host Haskell Friday

Both the Pipers and the Piperettes held on to their lead in District play with wins over Anson there Tuesday evening. The teams will host Haskell here Friday night to close out the first round action. The Pipers and the Piperettes are both undefeated in conference play.

Going into the final game of the first round the Piperettes are 3-0 and the Pipers are 4-0. The girls also have a second round win over Haskell to their credit.

Johnny Jones scored 26 points to lead the Pipers to their 64-63 victory over the Anson Tigers Tuesday. He was followed by George Titus with 14 points.

The Pipers tied the game up at the end of the first period, led 34-25 at half time and then were ahead 50-41 at the end of the third quarter. On the shooting of Alex Lopez, the Tigers closed the gap in the final period to one point as the game ended.

The Piperettes took an easy 71-46 victory over the Anson girls with Leigh Anne Vaughan scoring 36 points for the scoring honors. She was followed by Kathy Hooper with 22 and Alberta Cork with 13.

Anson won the Junior Varsity

Seventh Grade Wins, Eighth Graders Lose

The Hamlin Junior High basketball teams hosted Haskell here Monday evening. The seventh grade boys won the opener, 25-23, but both eighth grade teams were defeated. The girls lost 29-10 and the boys lost 33-31.

The eighth grade boys and girls will play in the Aspermont Junior High Tournament Today (Thursday) and Saturday. The next district game will be at Stamford on Monday with the seventh grade boys playing at 5 p.m.

game in overtime, 51-48. Daniel Willis and William Brown each scored 12 points.

Playing here Friday evening, the Pipers defeated Ballinger 74-61 with David Willis hitting 21 points. Others hitting in double figures for the Pipers were

Titus with 16, Jones with 12 and Bill Cork with 10.

Hamlin won the JV game, 64-47 with Brown hitting 15 points and Robert Pharris scoring 13.

The Piperettes will host the Anson girls here Tuesday with JV game starting at 6:30.

CALLS ELECTION—

School Board Keeps Old School Time Here

The Trustees of the Hamlin Independent School District voted here Monday evening not to change school hours and called the election of two trustees for Saturday, April 6. The board discussed delaying the starting time of school until 9 a.m. because of Daylight Saving Time but voted against

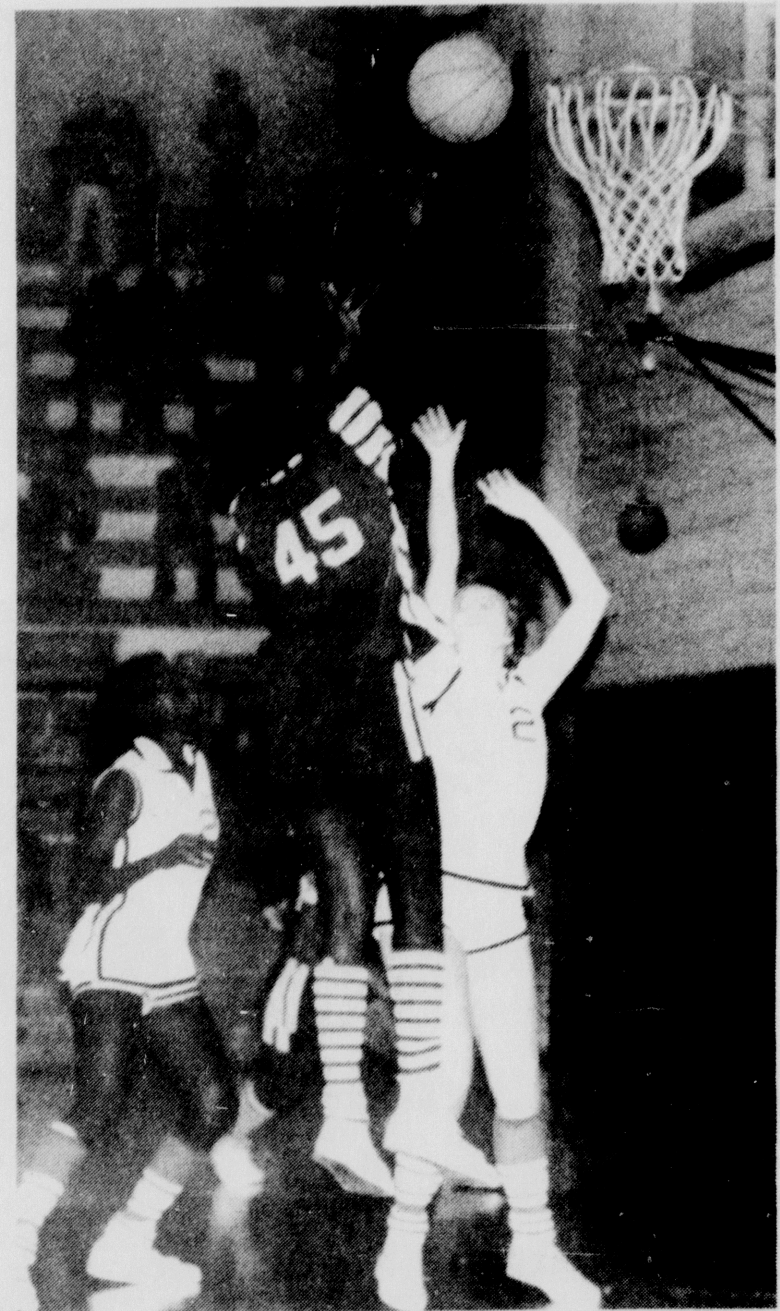

it because the Trustees had heard very few complaints about the present schedule.

The terms of two trustees expire this year and will come up for election in April. Both men, Raymond Scifres and Jackie Williams, filed for re-election Monday evening. Filing deadline for the election is March 7.

Mr. and Mrs. A. B. Carlton and Mrs. Arlie Cassie were named election officials and Mrs. J. O. Murphree was named absentee clerk. Anyone desiring to file for election may fill out an application in the superintendent's office at the high school.

The board, acting in executive session, renewed Superintendent Bob Hawes' contract and extended it one year. The extension gives the superintendent a three-year contract. He previously has had a two-year contract.

The board also heard an attendance report from the superintendent that showed a slight increase in attendance for the fall term of 1973 over the fall term of 1972. The percent of attendance for 1972 was 95.6 as compared to 1973 which was 95.83. Total enrollment for 1973 was up from 825 in 1972 to 840 in 1973. The bulk of the increase is in kindergarten, it was pointed out. The average daily attendance was up from 781.9 in 1972 to 801.8 in 1973.

CORK PUTS UP TWO POINTS—Alberta Cork shoots a two pointer for the Piperettes in their 71-46 victory over Anson. Cork hit 13 points for the night. Leigh Anne Vaughan was high for the Piperettes with 36 points and Kathy Hooper put in 22 points.

Question:
Will you have enough natural gas for your home this winter?

Answer:
Yes!

Let's lay this question to rest once and for all.

Lone Star Gas Company has enough natural gas reserves under contract to adequately supply our residential, commercial and other higher priority customers for many winters.

To be sure we have enough for these consumers, we will make some extensive curtailments of service to our large volume customers during extreme cold weather this winter. In fact, our contracts with large volume customers anticipate the need to curtail up to 100% of their needs during these cold periods. This allows us to assure service to residential, commercial and other higher priority customers.

We're taking major steps to make sure you have gas for the future. New gas we're buying costs more than four times the price we paid just a few years ago. This is an astonishing amount of money! But it's the price all of us must pay for a continuing supply of natural gas energy.

This winter, and in the future, natural gas from Lone Star will continue to be your best method of home heating, water heating and cooking... just as it has been for more than 40 years. But we all must remember to help conserve this precious energy fuel.

FROM THE FILES . . .

FIFTY YEARS AGO
(January 11, 1924)

The regular meeting of the Jones County Medical Association met here Tuesday afternoon. The Legion Hall was used and a very interesting session was reported. Dr. Jones of Anson brought forth a paper that was given considerable discussion. After several interesting reports the election of officers took place and the following officers were elected: Dr. Taylor, president; Dr. Hudson, vice president; Dr. Jones, secretary and treasurer; Drs. White, Jones and Hudson, Delegates to the State Association.

Since Tuesday night Hamlin people have unanimously agreed to attach burglar alarms on their garage doors and walls, for on Tuesday night, it was fully proven that locks are no good. Somewhere there is a pile of auto articles, sufficient to fill an ordinary auto supply house with anything needed from a pump to a shot gun. Why the rascals even took hypodermic needles, overcoats and tires, tubes and rims.

The January term of the District Court of Jones County convened at Anson on Monday, Jan. 7, and the Grand Jury was impaneled for the term. Indications are that the present term of District Court will be a busy one. There are about 50 felony cases, a large number of complaints, about 70 new civil cases have been filed and 29 divorce cases are awaiting action of the Court.

TWENTY YEARS AGO
(January 15, 1954)

Outlook for cotton for 1954 is one of large supplies and moderate or less demand, declares Bill Lehmborg, county agent, who says a situation of this kind is not too favorable to prices. This situation will cause Texas Cotton producers to make sharp adjustment in their plans for the 1954 crop year.

Several members of the Hamlin Lions Club are scheduled to attend two area meetings within the next few days. A zone meeting will be held at Sweetwater Monday evening, at which Zone Chairman, B. V. Newberry of Hamlin will preside.

Early response to the annual March

of Dimes campaign in the Hamlin community has been good. A check of the test tube receptacles during the first part of the week revealed that considerable change is coming in at the counters of many Hamlin business houses. Plans for other more concerted programs for the drive were made by the chairman and his staff of advisors this week.

About 500 feet of two-inch gas line is being laid on South Central Avenue by Lone Star Gas Company. The mains are replacing old pipe laid several years ago.

Two completions, one deepening project, a new location and two major tests of deep wells in the Hamlin area highlight the oil development picture for the week.

TEN YEARS AGO
(January 16, 1964)

The Hamlin Lions Club's fund raising drive for a Boy Scout Hut got underway here this week and the response has been very good. By Tuesday the drive had raised around \$800 of the \$2,000 to \$2,500 expected to be needed with only a few of the Lions Club members having reported. The club is making a canvass of all of the business men of the city as the first part of their drive.

Last Saturday more than 500 musicians gathered on the McMurry College campus in Abilene for All-Region Band elections. Freddie Shave, senior band student, was one of the 106 musicians selected.

The sale of poll tax receipts at the office of the Hamlin Board of Community Development is lagging as only 50 have been sold the first half of the month. Last year 300 receipts were obtained through the local substation. Residents are urged to buy their poll taxes early so as to prevent a last minute rush.

Tickets for the annual Board of Community Development banquet have been distributed to the board and to business firms in Hamlin and are now on sale for \$2.00. The banquet will be held Friday night, Feb. 7, in the High School Gymnasium.

At least four grass fires have required the services of the Hamlin Volunteer Fire Department during the past week.

Attitude...
OF PRAYER

"Give ear to my words, O Lord, consider my meditation. Harken unto the voice of my cry, my King, and my God: for unto thee will I pray."
Psalms 5:1-2

God hears and answers prayers, but not everyone knows how to pray. Even the Lord's disciples asked that he teach them how to pray.

Attitude of the individual is important in prayer. Prayer is the opportunity that we have to tell God of our blessings and give thanks. It is an opportunity to petition for help, but above all, our hearts should be willing that God's will be done.

Prayer should be offered individually and in groups.

ATTEND CHURCH
AND
PRAY WITH OTHERS

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Noinda Philosopher Goes Through His
Annual Chore of Cleaning Off Desk

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One sifts through a few scattered thoughts this week, getting rid of the old year.

Dear editor:

I was going through the annual chore of cleaning off my desk preparing for a new year and ran across a few paragraphs I might as well get rid of on the grounds of the old saying, "Waste not, Want not," which was true up till about six months ago when nearly everything, whether we'd wasted it or not, ran short, including even bailing wire and I have yet to hear of any farmer

ever wasting bailing wire.

Anyway, here are a few scraps I saved from my wastebasket:

Now that daylight saving time is in effect some people are worried about kids going to school in the dark, whereas maybe they ought to be worried about kids coming out of school in the dark.

Speaking of old sayings, I have often wondered, you reckon the one about "not putting all your eggs in one basket" was thought up by a basket maker?

Language has to be handled carefully not only to get your point over but to keep from getting it over. For example,

how far would that famous hamburger chain get if instead of advertising its famous "Quarter pounder" it said the same thing by calling it a "Four ounce"?

By the way, in case you have any reader who is slow on the up-take and probably borrows a copy of The Herald, there are 16 ounces in a pound, even of hamburger meat.

And then there was the Scrooge-type man who, on getting a picture of his out-of-state grandchildren for Christmas, said "Hmmm... how's that saying go... One picture is worth a thousand kids."

You can't always believe what you read. On the other hand, if you read just what you believe, you won't use much electricity.

Yours faithfully,
J. A.

Joe Alan Fudge was released from Hendrick Memorial Hospital last Tuesday after being treated for serious injuries in a one-vehicle turnover Christmas Eve. The accident occurred about 10:20 p.m.

Fudge was taken to Abilene by ambulance and treated for eye injuries, broken right leg, and surgery later to remove the right knee cap that was mangled. The family said he would be in a cast for about four to six weeks and then will undergo therapy.

Fudge was a passenger in a pickup driven by Aubrey Fry, 25, of Rotan. The truck was traveling south on State Highway 70 when the driver apparently lost control and the vehicle crossed the center stripe and went off the road on the left side, said Highway Patrolman Albert Hataway of Roby who worked the accident along with Allan Arnwine of Roby.

Fry was treated for minor injuries and released at Callan Hospital in Rotan.

Leon Thurman has authorized the Hamlin Herald to announce that he is running for re-election to the office of County Judge of Jones County. He is presently serving his third term in this capacity.

Judge Thurman served as State Representative before being elected County Judge.

- Claims by 14 ex-employees of a pipeline construction company that the company owed them \$71,728 in bonuses on promise of the president are not valid.
- A divided (3-2) Court of Criminal Appeals once more ruled against the appeal of former State Representative Walter Knapp
